**To whom it may concern**

This is to confirm that in co-operation with the German Consulate General in Vancouver, you performed a piano concert „Sound and Sight“ at the Vancouver Academy of Music on November 16, 2004.

You presented pieces by Schumann, Debussy, Villa-Lobos and “Pictures at an Exhibition” by Mussorgsky in a most impressive interpretation - while simultaneously paintings created by Ade Frey inspired by your performance of these pieces were projected on a large screen via laptop-DVD. This presentation of classical music at its finest, contemporary paintings through the latest projection technology delighted and stimulated the audience and gave the German Consulate General an opportunity to showcase a classical modern image of Germany.

The concert evening was rounded out exquisitely after intermission with an impressive Lieder collection by composer Louis Ferdinand Prinz von Preussen presented by Vancouver soprano voice student Ms. Soula Parassidis (Vancouver Academy of Music) accompanied by you.

The post-concert reception offered our guests and the artists a chance to exchange impressions. You were a reliable partner for us in this project and the German Consulate General in Vancouver is grateful to you and wishes you all the best for your future.

Sincerely,

  
Arvedt Achilles  
Cultural Attache
